

Asjad Naveed

Backend Laravel Engineer

📍 Dera Ismail Khan, PK ✉ naveedasjad840@gmail.com ☎ 0346-7859231 [GitHub](#) [LinkedIn](#)

PROFESSIONAL SUMMARY

Backend-focused Laravel Engineer with 1+ year of experience building scalable, multi-tenant SaaS platforms using Laravel, PHP, and MySQL. Proven ability to design and deliver production-grade web applications with clean, maintainable code, RESTful API integrations, and robust background processing. Experienced in full-cycle development — from database architecture and performance optimization to third-party integrations and deployment on DigitalOcean.

WORK EXPERIENCE

Laravel Developer | [IT-Linked](#) | Nov 2023 – Present

Multi-Tenant SaaS Platform (Krayin CRM Extension)

- Extended Krayin CRM into a fully multi-tenant SaaS platform with automated tenant provisioning and isolated per-tenant databases.
- Implemented secure authentication, authorization, and session management across multiple tenant environments.
- Continuously troubleshooted, tested, and optimized core platform functionality for reliability and scalability.

API Integrations & Workflow Automation

- Built and consumed RESTful APIs to integrate Twilio for real-time WhatsApp communication with CRM users.
- Developed WPForms integration to automatically convert web form submissions into CRM leads and related records, significantly improving lead capture efficiency.
- Automated lead generation pipelines and notification workflows using asynchronous Laravel Jobs & Queues.

Performance & Infrastructure

- Optimized MySQL queries and schema structures to improve multi-user read/write performance under concurrent load.
- Implemented background job processing to reduce API response latency and improve perceived app responsiveness.
- Configured DigitalOcean Spaces for secure, scalable file storage with managed database integration.
- Monitored and troubleshooted production application issues to maintain high uptime and reliability.

Dubai-Based Travel Management Platform (Team Lead)

- Led backend development of a multi-role travel management platform (Admin, Staff, Agents, Agencies) for a Dubai-based client.
- Built visa workflow automation, ticketing systems, and Umrah service modules to streamline operations.
- Designed financial reporting modules with transaction history tracking and PDF/Excel export functionality.

TECHNICAL SKILLS

- | | |
|--|---|
| ▪ PHP 8.x | ▪ Laravel (Queues, Jobs, Events) |
| ▪ MySQL / Query Optimization | ▪ RESTful API Design & Consumption |
| ▪ Multi-Tenant SaaS Architecture | ▪ MVC & SOLID Principles |
| ▪ JavaScript / jQuery / HTML | ▪ Git, GitHub, Bitbucket |
| ▪ DigitalOcean (Droplets, Spaces, Managed DBs) | ▪ Twilio / WPForms Integration |
| ▪ Object-Oriented Programming (OOP) | ▪ Background Processing & Async Workflows |

EDUCATION

Bachelor of Science in Computer Science | Government Degree College | Sep 2019 – Aug 2023

– Relevant coursework: Computer Architecture, Networking, Microprocessors, OOP.
